--> Comment Text :  
I am against Yucca Mountain waste in Nevada. You never put all your eggs in one basket. If all the states kept their own waste it would take 50 attacks by terrorist and that would be very unlikely. If you dump all the Nuclear Waste in Nevada all it would take would be one Bunker Busting Bomb to destroy 1/3 of the population of The United States. You can believe everything you hear about it being safe but I don't. I remember some guy telling my sister it was safe, and she believed him, and she had a hard time buttoning her coat for 9 months. I am a very concerned citizen of Nevada and I am very proud to be an American. Keep the Nuclear waste in each state, Nevada is not a dumping ground. Thank You, Jim Farone
